

Susan is a Toronto sculptor and art teacher. Website: susanlow-beer.com

The emphasis in these workshops are on individual instruction without the use of the wheel. My focus is on finding and allowing the voice of the participant to grow and develop at their own speed. All levels of skill, from the novice to the experienced work together in my studio, which is a light filled airy space.

Susan Low-Beer's 2020 Clay Workshops

January	11	one day free form
February	22	one day sculpting from the model (female)
